

CTVB SUPPLY AIR VALVE

Air Management & ATDs

Introduction

Draught free air supply

- Intended for ceiling mounting
- Low noise level
- Minimizes the risk of dust on the ceiling surface

Product details

Product Code: CTVB

The CTVB is a supply air valve for ceiling mounting in offices, houses and hotel rooms. The air discharged from the valve is mixed thoroughly with the room air thus providing a draught free air supply. The design of the CTVB minimizes the risk of dust deposits forming on the ceiling surface
